Art Unit: 3636

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the height adjustable backrest, as set forth in claim 7, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 4, there is no definite antecedent basis for "the backrest".

The same applies to "the top end of the guide sleeve", in line 7, "the bottom articulation bearing", in line 11, "the top articulation bearing", in line 12, "the bottom of the retaining bar", in lines 15 and 16, and "the shaft" and "the backrest panel", in line 20.

Claim 2 as a whole is confusing and unclear.

In claim 4, "its nose" lacks definite antecedent basis.

In claim 6, the term "PUR material" is not a common art term, and should be defined in structural terms.

Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Application/Control Number: 10/620,381

Art Unit: 3636

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Glasgow, Page, Krantz, Hirth, Riach, Lloyd, Georg et al, Tinsley, and Bauer et al show various features of the invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter R. Brown whose telephone number is 703-308-2103. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
